About Me

I am a dedicated computer science engineering student with a strong passion for web development. Recently, I completed a 15-day internship at Zealsoft Technology Solutions, focusing on the .NET domain, where I gained hands-on experience and expanded my technical skills.

Skills

- Management Skills
- Communication Skill
- Coding Knowledge
- System Operating
- Logical Thinking
- Typing Skill

🎓 Education

● **Kamaraj College of Engineering and Technology**
   B.EComputer Science Engineering   2022 - 2026
   CGPA: 8.24/10 (till 5th semester)

● **Bharathiyar Matric Higher Secondary School**
   HSC-80%   2021 - 2022

● **Bharathiyar Matric Higher Secondary School**
   SSLC-92.2%   2019 - 2020

LANGUAGES

- English (Fluent)
- Tamil (NativeSpeaker)

💼 Projects

● **Online Attendence Management System**
   Student Intern   15 Days

   Developed an Online Attendance Management System during an internship at Zealsoft TEchnologies using .NET Framework, C#, and SQL Server. Designed user-friendly interfaces for attendance tracking, report generation, and role-based access.

   Automated attendance processes to improve accuracy and efficiency. Conducted testing to ensure reliability and created dashboards for real-time monitoring. Successfully streamlined attendance management and reduced manual effort.

● **Food Ordering App**

   The Food Ordering App allows users to browse menus, add items to a cart, and place orders online. Developed using PHP, it features user authentication, real-time order tracking, and secure payment integration.

   Admins can manage menus, track orders, and generate reports. The app ensures smooth communication between restaurants and customers. It is scalable, customizable, and optimized for mobile and desktop users.

📖 Certificate

Infosys

- Fundamentals of Python
- Java Programming

Cisco

- Ethical Hacker
- Networking
