PROFILE

Hello! My name is Infant Regies A, and I am currently pursuing a degree in Computer Science and Engineering at Kamaraj College of Engineering and Technology. I am dedicated to enhancing my skills in communication and programming. Through academic projects and hands-on experience in live web development projects, I have gained valuable insights and practical knowledge. I am eager to apply my expertise and enthusiasm to collaborate with my peers and contribute to the success of your company.

INTERNSHIPS AND PROJECTS

Priga Solutions.   Jun - July 2024

Intern

Completed an internship at Priga Solution as a full-stack developer, specializing in MERN stack development. Gained hands-on experience in building dynamic web applications. Successfully developed an e-commerce website as a project during the internship.

Full Stack Project.   2024

Developed an online mobile store using the MERN stack during an internship at Priga Solution. The project featured user authentication, product display pages for mobiles, payment integration, and various additional functionalities to enhance user experience.

Plant and Crop Disease Prediction Project.   2024

Participated in the Smart India Hackathon and developed a Plant Crop Disease Prediction system. The project accurately identified crop diseases and provided solutions based on real-time weather and location data.

PROGRAMMING SKILLS

- Java
- JavaScript
- Python
